|                         |                | <b>Country:</b>   | Australia  |

## PERMIT AREA

|                                                                                      |                                                                            |
|--------------------------------------------------------------------------------------|----------------------------------------------------------------------------|
| <b>Size of area applied for (ha):</b>                                                | 105.1500                                                                   |
| <b>Size of surface area applied for (ha):</b>                                        | 105.1500                                                                   |
| <b>Local government area(s):</b>                                                     | Cook Shire Council, Cook Shire Council                                     |
| <b>Has a datum post been inserted?</b>                                               | Yes                                                                        |
| <b>Datum post standard used:</b>                                                     | GDA2020                                                                    |
| <b>Provide coordinates for the datum post:</b>                                       | -16.0043622, 144.358667                                                    |
| <b>When was the land marked out?</b>                                                 | 09/12/2025                                                                 |
| <b>Is surface area within the permit area required?</b>                              | Whole.                                                                     |
| <b>Provide width of access (m):</b>                                                  | 5.00                                                                       |
| <b>Provide any relevant information about access including start and end points:</b> | Access commences at gazetted Maytown Road and ends within the mining lease |

## LAND INFORMATION DETAILS

|  |
|--|
|  |
|--|

Does this application involve the surrender of a granted permit in favour of whole or part of this application? No

Is there any restricted land associated with this permit application? No

Is the lease area within the surface of reserve? Yes

Is the land applied for situated within an area of a greenhouse gas (GHG) permit? No

#### Constrained lands

| Type                                | Brief definition                                                                                                                                                                                                                                                                                                                                                 | Details of constraint                                                                                                          |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Endangered Regional Ecosystems      | Where the application overlaps with a regional ecosystem that is endangered, additional requirements for the Environmental Authority may be required. Remnant 2019 regional ecosystems are vegetation communities in a bioregion that are consistently associated with a particular combination of geology, landform and soil.                                   | For more information please contact the Queensland Herbarium, Department of Environment and Science, Brisbane Botanic Gardens. |
| Resource Reserve                    | Provides a graphical representation of the protected area estate as managed by Queensland Parks and Wildlife Service (QPWS) for areas managed under the Nature Conservation Act 1992 (National Park of various types, Conservation Park and Resources Reserve), and areas managed under the Forestry Act 1959 (State Forest, Forest Reserve and Timber Reserve). | For more information please contact Department of Environment and Science.                                                     |
| RVM category A - vegetation offsets | This layer provides information about vegetation management activities within Queensland for landholders.                                                                                                                                                                                                                                                        | For more information please contact Department of Environment and Science.                                                     |

#### Unavailable land

| Type                      | Brief definition                                                                                                                                                                                                                                                                           | Details of constraint                                                                        |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|
| Moratorium Period Current | This land will be unavailable for 2 months after the expiry of the previous exploration permit, or the abandonment of a previous exploration permit application. This land will be made available on the first business day of the month following the end of the 2 calendar month period. | Mineral Resources Act 1989, for more information please contact the Department of Resources. |

**Land details**

| Description                                                             | Proposed usage | Current usage | Compensation required? |
|-------------------------------------------------------------------------|----------------|---------------|------------------------|
| Lot 14 on plan SP250040 - Lands lease Par Palmerville Station           | Permit         | Grazing       | Yes                    |
| Lot 14 on plan SP250040 - Lands lease Par Palmerville Station           | Access         | Grazing       | Yes                    |
| Lot 1 on plan CP907719 - Reserve Par Palmer Goldfields Resource Reserve | Access         | Other         | Yes                    |

**NATIVE TITLE**

|                                       |                    |
|---------------------------------------|--------------------|
| <b>Native title process:</b>          | Right to Negotiate |
| <b>Determined native title claim:</b> | Yes                |

**OBLIGATIONS**

**As the authorised holder representative, I understand and agree to the obligations associated with the permit: Yes**

## Adjoining land information details for mining lease applications

In this worksheet, input the **land information details** that will be included in your new mining lease application. The column headings with \* are mandatory and require data to be completed either by selection of an item from a pick-list or entering some texts. You can 'copy and paste' multiple items in the same column. Each individual cell will give you instruction on how to enter the correct data.

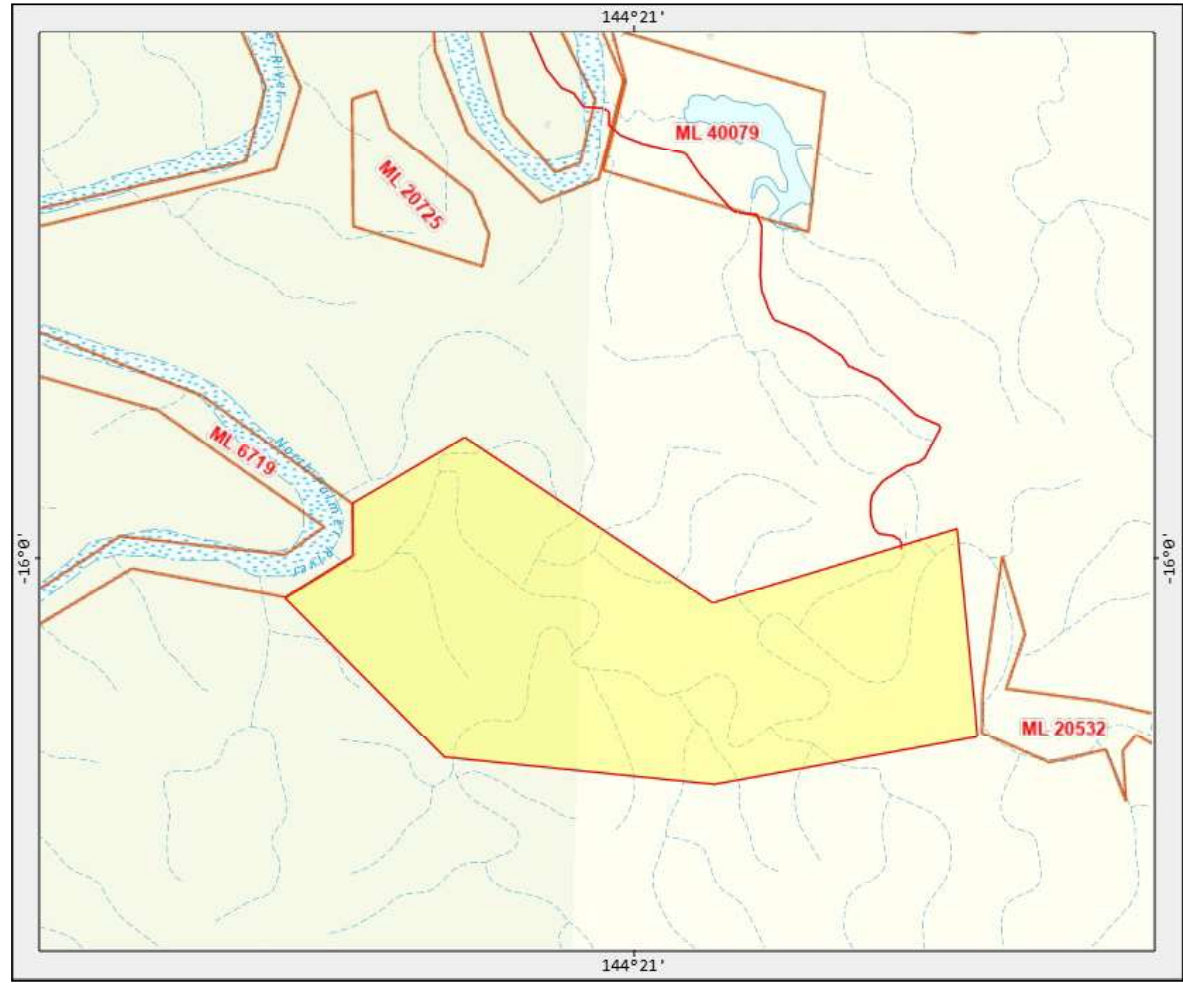

| Lot number | Plan number | Land tenure type * | Land tenure name (if applicable) | Land owner's name * | Land owners address |
|------------|-------------|--------------------|----------------------------------|---------------------|---------------------|

# MINING LEASE WORK PROGRAM

**Applicant:**

WAR (NQ) Pty Ltd

**Permit Name:**

Another Crazy Horse

**Permit Term applied for:**

15 years

**When is mining going to start?**

Work is proposed to commence following work on ML 3077, which will follow ML 3076, currently finalising works.

**Permit Term Justification:**

A term of 15 years is applied for to allow for the completion of production for already granted permits and the commencement and working of this permit and other applications being made around the same time (give or take a few days). The term also allows for finalisation of rehabilitation for this permit.

**Permit Size and Shape (attach maps):**

An area of 105.15 hectares is applied for with this application. The area covers part of Crazy Horse Creek between ML 6719 and ML 20523. There are indications of alluvial gold resources remaining within the area of the main creek and tributaries.

The shape also allows for roads and access otherwise around Crazy Horse Creek to ensure that the permit holder is compliant with legislation.

**Minerals Sought:**

Gold

**Other Purposes Sought:**

Processing Plant, Camp, Workshop/machinery/storage

**Mineralisation/Tonnes/Banked cubic metres (BCM); Grade:**

There is approximately 60,000m<sup>3</sup> of alluvial wash located in the area of Crazy Horse Creek and the southern tributary within the permit boundary. Additional resources are located in the smaller tributaries and the eluvial flats outside of the creek systems.

**Mining Methodology:**

Mining is by semi-mobile plant. Trommel. Material is carted from the river to the plant site for processing and returned to the river from there. Excavator is used to extract wash, dump truck takes the material to the plant, a second excavator feeds the plant.

The plant is capable of processing 80t an hour of wash without losing gold. The wash put through is variable but work on the remaining leases is anticipated to be finished in 3 years. Rehabilitation monitoring will occur for the remainder of the term.

# MINING LEASE WORK PROGRAM

## Minimum Mining Rate (tonnes or BCM per hrs/days/years):

The plant is capable of processing 80t an hour of wash without losing gold. The daily wash throughput is variable depending on the quality of the wash and other determining factors.

## Infrastructure:

As the older permits are finalising, there may be scope to move some of the infrastructure to the newer leases. As such, application is made for Processing Plant, Camp, and Workshop/machinery/storage purposes to allow for the possibility of constructing day camps or sheds/machinery storage on the newer leases closer to operations.

## Plant/Equipment:

WAR (NQ) Pty Ltd [REDACTED] the below listed plant and equipment located on the mining leases in use in the operations.

- 100Ton per hr. Gold Trommel
- Hitachi AH500 Articulated Dump Truck
- Hitachi ZX330LC-3 Hydraulic Excavator
- Hyundai HL770-9 Wheel Loader
- Cat D8L Dozer
- Water pumps
- Gensets
- Miscellaneous hoses

[REDACTED] extensive machinery and equipment for use in their road contracts which can be called upon as necessary.

## Mine Closure/Rehabilitation:

Rehabilitation is progressive as work moves through the river. The wet season each year aids in recontouring. Rehabilitation is planned to be finalised by the time the permits expire.

## Project Considerations

### Other Permits in Project/Related Leases:

ML 40079, ML 3076, ML 3077, ML 6719 are current granted leases. ML 40079 is an infrastructure lease being retained for the water storage on site.

ML 100497 was applied for on 19 December 2025 to cover the off-lease camp. This application and 1 – 2 others are intended to be made in the coming days.

### Project production (projected per annum/life):

The project production is projected to be approximately 40,000m<sup>3</sup> each year when weather and access permits.

### Human resources committed to the project:

The operation is ideally a 2 person operation, however it has been working successfully as a 1 person operation for the last couple of years. There are positive relationships with neighbouring permit holders, and on occasion they assist as needed.

Dear Sir/Madam,

**STATEMENT DETAILING ADJOINING LAND TENURE – ANOTHER CRAZY HORSE - WAR (NQ) PTY LTD**

I act on behalf of WAR (NQ) Pty Ltd.

The Another Crazy Horse application is located approximately 112 kilometres southwest of Cooktown over lot 1 on CP907719, Palmer Goldfield Resources Reserve and lot 14 on SP250040, Palmerville Station. An area of 105.15 hectares more or less is being applied for to cover the identified resource.

The application is wholly within the Cook Shire Council boundary. The attached table provides co-ordinates of boundary posts as taken at time of marking. The datum post is located at -16.0043622, 144.358667.

| Latitude    | Longitude   | Latitude    | Longitude   |
|-------------|-------------|-------------|-------------|
| -16.0009709 | 144.3411949 | -15.9992734 | 144.3581501 |
| -15.9999527 | 144.3429057 | -16.0043622 | 144.358667  |
| -15.9986663 | 144.3428873 | -16.0054914 | 144.3520451 |
| -15.9970484 | 144.3457421 | -16.0048494 | 144.3452051 |
| -16.0011014 | 144.3520021 | -16.0009709 | 144.3411949 |

The application is intended to abutt ML 6719 on the western side. It is not intended to abutt ML 20532 on the eastern side.

Please contact me on [REDACTED] if you require further information in relation to this statement.

Yours sincerely

[REDACTED]

Claire Mackney  
Senior Tenement Manager

PO Box 706, Mareeba Qld 4880

▼ Area Details

Date started: 22/12/2025

Date due: 31/12/2025

Date completed: 13/01/2026

Status: Closed

**Area validation outcome:** Area verification has been completed with minor changes. all relevant area files and metadata have been updated in MMOL database.

**Overall comments:** Area amended so that that NW corner abuts ML6719 as stated in the application documents. All other corners match the coordinates in the documents. Area calculated as 104.99ha which is less than applied for. Whole surface area. Access amended so that it aligns with the other accesses in the area perfectly.

**Applied permit area:** Refer to application pdf for details.

**Calculated permit area:** 104.99

**Surface area:** Whole.

**Comments related to permit**

**access:** Access amended so that it aligns with the other accesses in the area perfectly.
