

Application for Mining Lease

Mineral Resources Act 1989

Form MMOL-14 Version 7

Permit Application (ID: 10013174) - COMPLETE

Lodged On: 20/12/2025 03:49 PM

PERMIT DETAILS

Permit name:	Colt
Permit type:	Mining Lease - Eluvial, colluvial and alluvial gold, silver and tin
Permit term:	10 Years
Permit subtype:	Eluvial, colluvial and alluvial gold, silver and tin
General locality of the application:	Approximately 109 kilometres southwest of Cooktown
Specific minerals:	Gold

PERMIT HOLDER DETAILS

Client name	Percent holding	Authorised
WAR (NQ) PTY. LTD.	100.000000000000	Yes

Holder address details:

Holder:	WAR (NQ) PTY. LTD.	Address:	
ACN:		Town/City:	
Email address:		State:	
Business number:		Postcode:	
Mobile number:		Country:	Australia

Applicant or associate disqualified: No

Authorised Holder Representative (AHR) address details:

Name:	Claire Mackney	Address:	PO Box 706
Email address:		Town/City:	Mareeba
Business number:		State:	QLD
Mobile number:		Postcode:	4880
		Country:	Australia

PERMIT AREA

Size of area applied for (ha):	12.7700
Size of surface area applied for (ha):	12.7700
Local government area(s):	Cook Shire Council, Cook Shire Council
Has a datum post been inserted?	Yes
Datum post standard used:	GDA2020
Provide coordinates for the datum post:	-15.9761178, 144.3617334
When was the land marked out?	17/12/2025
Is surface area within the permit area required?	Whole.
Provide width of access (m):	5.00
Provide any relevant information about access including start and end points:	Access commences at gazetted Maytown Road and ends within the mining lease

LAND INFORMATION DETAILS

Does this application involve the surrender of a granted permit in favour of whole or part of this application? No

Is there any restricted land associated with this permit application? No

Is the lease area within the surface of reserve? No

Is the land applied for situated within an area of a greenhouse gas (GHG) permit? No

Overlapping permits

Permit number	Holder	Status
ML 3076	WAR (NQ) PTY. LTD.	GRAN

Constrained lands

Type	Brief definition	Details of constraint
Endangered Regional Ecosystems	Where the application overlaps with a regional ecosystem that is endangered, additional requirements for the Environmental Authority may be required. Remnant 2019 regional ecosystems are vegetation communities in a bioregion that are consistently associated with a particular combination of geology, landform and soil.	For more information please contact the Queensland Herbarium, Department of Environment and Science, Brisbane Botanic Gardens.
Resource Reserve	Provides a graphical representation of the protected area estate as managed by Queensland Parks and Wildlife Service (QPWS) for areas managed under the Nature Conservation Act 1992 (National Park of various types, Conservation Park and Resources Reserve), and areas managed under the Forestry Act 1959 (State Forest, Forest Reserve and Timber Reserve).	For more information please contact Department of Environment and Science.
RVM category A - vegetation offsets	This layer provides information about vegetation management activities within Queensland for landholders.	For more information please contact Department of Environment and Science.

Unavailable land

Type	Brief definition	Details of constraint
Moratorium Period Current	This land will be unavailable for 2 months after the expiry of the previous exploration permit, or the abandonment of a previous exploration permit application. This land will be made available on the first business day of the month following the end of the 2 calendar month period.	Mineral Resources Act 1989, for more information please contact the Department of Resources.

Land details

Description	Proposed usage	Current usage	Compensation required?
Lot 14 on plan SP250040 - Lands lease Par Palmerville Station	Permit	Grazing	Yes
Lot 14 on plan SP250040 - Lands lease Par Palmerville Station	Access	Grazing	Yes
Lot USL on plan River - Unallocated state land Par North Palmer River	Permit	Other	No

NATIVE TITLE

Native title process:	Right to Negotiate
Determined native title claim:	Yes

OBLIGATIONS

As the authorised holder representative, I understand and agree to the obligations associated with the permit: Yes

PAYMENT DETAILS

Fee type	Details	Amount (\$)
ADVREVDL	Native title determined land advertisement	0.00
APPMLECAGECAT	Mining Lease - Eluvial, colluvial and alluvial gold, silver and tin	930.50
Total Fee:		930.50

Adjoining land information details for mining lease applications

In this worksheet, input the **land information details** that will be included in your new mining lease application. The column headings with * are mandatory and require data to be completed either by selection of an item from a pick-list or entering some texts. You can 'copy and paste' multiple items in the same column. Each individual cell will give you instruction on how to enter the correct data.

MINING LEASE WORK PROGRAM

Applicant:

WAR (NQ) Pty Ltd

Permit Name:

Colt

Permit Term applied for:

10 years

When is mining going to start?

Work is proposed to commence following work as soon as practical following grant.

Permit Term Justification:

A term of 10 years is applied for to allow for the completion of production for already granted permits and the commencement and working of this permit and other applications being made around the same time (give or take a few days). The term also allows for finalisation of rehabilitation for this permit.

Permit Size and Shape (attach maps):

An area of 12.77 hectares is applied for with this application. This area is undertaken as an extension to ML 3076 taking up the area of the North Palmer River missed by the older application.

Minerals Sought:

Gold

Other Purposes Sought:

N/A

Mineralisation/Tonnes/Banked cubic metres (BCM); Grade:

The depth of the wash provides for approximately 80,000m³ of alluvial wash located in the area of the North Palmer River under application. Additional resources are likely to be located in the eluvial terraces outside of the river.

Mining Methodology:

Mining is by semi-mobile plant. Trommel. Material is carted from the river to the plant site for processing and returned to the river from there. Excavator is used to extract wash, dump truck takes the material to the plant, a second excavator feeds the plant.

The plant is capable of processing 80t an hour of wash without losing gold. The wash put through is variable but work on the remaining leases is anticipated to be finished in 3 years. Rehabilitation monitoring will occur for the remainder of the term.

Minimum Mining Rate (tonnes or BCM per hrs/days/years):

The plant is capable of processing 80t an hour of wash without losing gold. The daily wash throughput is variable depending on the quality of the wash and other determining factors.

MINING LEASE WORK PROGRAM

Infrastructure:

No Infrastructure will be located within the boundaries of this permit.

Plant/Equipment:

the below listed plant and equipment located on the mining leases in use in the operations.

- 100Ton per hr. Gold Trommel
- Hitachi AH500 Articulated Dump Truck
- Hitachi ZX330LC-3 Hydraulic Excavator
- Hyundai HL770-9 Wheel Loader
- Cat D8L Dozer
- Water pumps
- Gensets
- Miscellaneous hoses

extensive machinery and equipment for use in their road contracts which can be called upon as necessary.

Mine Closure/Rehabilitation:

Rehabilitation is progressive as work moves through the river. The wet season each year aids in recontouring. Rehabilitation is planned to be finalised by the time the permits expire.

Project Considerations

Other Permits in Project/Related Leases:

ML 40079, ML 3076, ML 3077, ML 6719 are current granted leases. ML 40079 is an infrastructure lease being retained for the water storage on site.

ML 100497 was applied for on 19 December 2025 to cover the off-lease camp. This application and 1 – 2 others are intended to be made in the coming days.

Project production (projected per annum/life):

The project production is projected to be approximately 40,000m³ each year when weather and access permits.

Human resources committed to the project:

The operation is ideally a 2 person operation, however it has been working successfully as a 1 person operation for the last couple of years. There are positive relationships with neighbouring permit holders, and on occasion they assist as needed.

Dear Sir/Madam,

STATEMENT DETAILING ADJOINING LAND TENURE – COLT - WAR (NQ) PTY LTD

I act on behalf of WAR (NQ) Pty Ltd.

The Colt application is located approximately 109 kilometres southwest of Cooktown over lot 14 on SP250040, Palmerville Station and Unallocated State Land (USL) North Palmer River. An area of 12.77 hectares more or less is being applied for to cover the identified resource.

The application is wholly within the Cook Shire Council boundary. The attached table provides co-ordinates of boundary posts as taken at time of marking. The datum post is located at -15.9761178, 144.3617334.

Latitude	Longitude	Latitude	Longitude
-15.9761178	144.3617334	-15.9821252	144.3644763
-15.9758945	144.3605412	-15.9811922	144.365241
-15.9785319	144.360436	-15.9786955	144.3628858

The application is intended to abutt ML 3076 on the western side.

Please contact me on [REDACTED] if you require further information in relation to this statement.

Yours sincerely

[REDACTED]

Claire Mackney
Senior Tenement Manager

Subject: ML 100499 mapping amendments
Attachments: ML100499_Area.zip

OFFICIAL

Good morning Claire,

Note: This email is an FYI only, no action required.

Our Spatial team have made some amendments to ML 100499 (Applicant: War (NQ) Pty Ltd) for mapping purposes. Shapefile attached.

Area

Cosmetic change. Adjusted the two posts not abutting ML 3076 to match the post coordinate locations. No significant changes in area. Original area at lodgement – 12.77 ha. New area – 12.76 ha.

Access

No changes.

Regards,
